

SV PALIÇADA

The Robust Fence ...

The **SV PALIÇADA** fence system was designed for those who need a security-minded Wrought Iron Fence System.

It's solid and robust look and extreme shock resistance, will stop and/or delay any attempts of climbing or cutting the fence.

It's available in two options of **D** or **W** vertical profiles.

SV PALIÇADA is supplied with 2700mm panels or in profiles, thus making for easy transport.

Galvanized and Lacquered finish. The standard **SV PALIÇADA** model is always supplied with a Galvanized finish, but, if required, it can also receive a colour Lacquered finish, RAL colour chosen accordingly to RAL standards: **RAL 6005, RAL 3000, RAL 5010, RAL 7030, RAL 9005 and RAL 9010**. The high quality lacquer finish gives a greater special appearance and durability to the panel.

Pate Metal Concrete Foundation

MODEL	A - Vertical tube	B -Horizontal tube	C - Post	HEIGHT
